

Stop It! Right Now! With FlameFighter Piercing Nozzles

The FlameFighter provides quick and efficient access through roofs, doors, walls, floors and even foundation blocks to extinguish fires from attic to basement. It gets you to the source of a fire quickly. In just seconds one or two firefighters can insert the FlameFighter into virtually any desired entry point and generate a high pressure water spray covering up to 2,400 square feet at 150 psi delivering 212 gpm. For vehicle fires, it easily pierces the hood, door or trunk to make for quick extinguishing. What's more, whether you're using water or foam, the precisely placed openings in the nozzle send out a pressuring spray that extinguishes or cools most any fire. *Piercing Nozzle Tip Spraying Unit covers over 2,400 sq. ft. at 150 psi. Can also adapt to foam applications. 5-yr. warranty. Ship. wt. 10 lbs.*

The Original FlameFighter - Made of chrome-plated high-quality steel. Measures 60" long. Comes equipped with a 1 1/2" NST hose connection (other threads available). Protruding handles allow for easy control by one or two persons. Rear is weighted so it can be used as a battering ram.

Lightweight FlameFighter - A lighter weight 3 foot applicator made of high-quality steel and aluminum. Comes with 1 1/2" pistol grip ball shutoff.

Uses:

- ▶ Houses
- ▶ Car & trucks
- ▶ Garages
- ▶ Barns
- ▶ Mobile homes

AJ550	FlameFighter Piercing Nozzle	\$1,586.95
AJ549	Lightweight FlameFighter Piercing Nozzle	\$1,136.95

900 Series Piercing Nozzles

These new nozzles combine the best of durability, flexibility and are light in weight. They can accommodate extensions for extra reach (2' per extension). They can also be driven in with a mallet if needed. This unique nozzle design needs to be driven in only 3.75" to have full penetration of the sprayer unit. Ideal for walls with coverage of up to 25 feet in all directions. It's powerful enough for fires in attics, basements, mobile homes, garages, vehicles or any confined space. These piercing nozzles feature a unique safety handle. That allows a firefighter to safely hold the unit when a mallet is being used to drive the nozzle in. The handle is removable if needed. They come with 1.5 NST threads as standard; other threads are available. Designed for the rugged demands of the Fire Service worldwide. *Ship. wt. 9-24 lbs.*
