

## Wet/Dry Hangers

One-piece corrosion-resistant plastic construction. Perfect for turnout coats, pants, and equipment. Prevents gear and equipment from fraying, while allowing for full ventilation and drying and eliminates pressure points and wrinkles. **AC533** holds 30 lbs., **AC534** holds 50 lbs., **AC535** holds 50 lbs. *Ship. wt. 1 lb.*

		Each	Dozen
<b>AC533</b>	Small Wet/Dry Hanger	N/A	\$60.95
<b>AC534</b>	Medium Wet/Dry Hanger	\$24.95	\$284.95
<b>AC535</b>	Large Wet/Dry Hanger	\$24.95	\$284.95

## Fast Dry Coat Hanger

Dry gear faster!

Keeps expensive coats organized and dry! Gear dries quicker because air circulates better inside the garment, allowing fabric-fibers to dry faster. Specify open or closed hook style. *Ship wt. 1 lb.*

<b>AF072</b>	Coat Hangers	
	Order 1-25	\$7.95/ea.
	Order 26-49	\$6.95/ea.
	Order 50 & Up	\$5.95/ea.

## Fast Dry Glove Hanger

Keeps expensive gloves organized and dry! Gear dries quicker because air circulates better inside the garment, allowing fabric-fibers to dry faster. Specify open or closed hook style. *Ship wt. 1 lb.*

<b>AF10602</b>	Glove Hangers	
	Order 1-25	\$7.95/ea.
	Order 26-49	\$6.95/ea.
	Order 50 & Up	\$5.95/ea.

## HangAir Gear Dryer

The HangAir dries turnout gear in hours. This gives you the opportunity of several uses of a dry suit throughout the day. The secret is a high-powered waterproof fan which pushes 120 cubic feet of dry air per minute through your suit as it hangs on a wide shoulder hanger. An added benefit is that the quick drying process retards the development of bad odors. The HangAir is molded from an incredibly tough plastic resin. When not in use, the cord can be stowed underneath the wing.

- ▶ 15' power cord attached to a universal power 100-240 vac wall adapter
- ▶ Safe, low-voltage 12v fan for safety
- ▶ Steel hook supports up to 100 lbs.
- ▶ 120 cfm high-power fan
- ▶ Tough, non-corroding resin and steel construction

## Cool Draft Blue™ Misting Fan

**AS431** - Cool Draft Blue™ has an 18" fan, pump base and cooler. 168 watts, 120v, 1.45 amps, 3-speed. The Cool Draft Blue™ can cool an area up to 200 square feet for approximately five hours. It has a 10 gallon water reservoir tank and includes a 25 foot outdoor-rated power cord with integrated GFCI. The Cool Draft Blue™ mist pump is rated for one gallon per minute output housed in a heavy-duty enclosure with power cut-off tip switch. Fan assembly includes a white powder-coated fan mounted to a yoke that is attached to the pump enclosure. The patented hub increases the air flow from the fan and releases mist in the "Sweet Spot" of the fans air stream. The mist hub has four .012 nozzles. One extra nozzle and two plugs also included. Designed for sporting, commercial and industrial use. Total required amps for fan and mist pump: 2.15 amps. Cooler & Fan dimensions: 42" H x 24" W.

**BH028** - Same as AS431 but with fan mounted to a yoke that is attached to the top of the adjustable cart. Total required amps for fan and mist pump: 2.15 amps.
