VentMaster™ Saw

Tempest VentMaster™ Fire Rescue Saw has all the power and aggressiveness you demand, yet all the safety and dependability you deserve. Built to meet the punishing demands of fire/rescue service, our all-purpose saw is easy to start and use, with built-in simplicity and safety that makes VentMaster™ the name trusted by so many of the world's fire and rescue professionals.

- ▶ **Husqvarna Power** - New! 71 cc, 5.4 HP, 575XT X-Torque engine specially modified for extreme first responder operations
- ▶ **Easy Start/Positive Stop** - Combined "On/Choke/Throttle Lock/Positive/Off" switch eliminates flooding and allows fast, convenient, reliable starting
- ▶ **Smart Design** - Best horsepower-to-weight ratio of its class! Exclusive Air- Injection, centrifugal force air cleaning system runs when other saws won't
- ▶ **Safe and Simple** - Tool-less KIS-40 Depth Gauge accurately controls depth of cut and safely speeds cuts. Standard with duel-raker Raptor Carbide fire/rescue chain

Ventmaster Upgrade Kits

Give Stihl, Echo, Cutters Edge (Jonsered) or many other saws the performance advantage of a VentMaster™ Fire Rescue Saw! Each kit includes guide bar, chain, sprocket and depth gauge.

Adjustable Depth Gauge - The KIS-40 depth gauge provides maximum safety for roof ventilation, allowing smoother, faster cuts without "rolling rafters" - rest the weight of the saw on the gauge, not the firefighter! It can be installed, adjusted from 0" to 6" depth or removed in just seconds, and won't trap debris or heat.

High Alloy Guide Bar - Designed for "plunge cuts" and maximum carbide chain performance. The bar has a precision-milled guide groove, hardened rails and totally integrated sealed nose bearings. Available in 16" and 20" lengths, slotted to accommodate KIS-40 Depth Gauge.
