## Working Air® Cylinders

These are lightweight, sturdy cylinders, ready to use. Have an economical air supply on hand. Made of strong, high density aluminum; stand-up design allows more convenient vertical storage. They take the rough handling at an emergency scene without the concern for costly fiber damage to your SCBA cylinders. Best of all, they cost much less than new high-pressure breathing air cylinders. This means that your department can economically maintain a high-capacity air system without tapping SCBA resources. *Note: not for breathing air. Ship. wt. 34 lbs.*

Cylinder	Maximum Pressure	3,000 psi Empty	3,000 psi Full
<b>AC628</b>	Air Cylinder / 80 cu. ft.	7.35 lbs.	23 lbs.
<b>AC630</b>	Air Cylinder / 13 cu. ft.	8.4 lbs.	27 lbs.
