

## Traverse Titan Rescue Stretcher

The Titan Rescue Stretcher is a complete re-thinking of the classic Stokes military-style stretchers. The top rail is a full one-inch diameter to make the stretcher easier to handle when carried for extended periods. "Chicken wire" has been replaced with Durathene netting which eliminates the cuts and scrapes caused by broken wire. Back support is molded High Density Polyethylene for greater durability. The steep sided design allows a narrower stretcher with the same width at the bed which will accept the standard sized back boards. A narrow width and rounded ends provide greater maneuverability in tight locations. Comes with four stretcher straps. Material: Stainless steel. Dimensions: 83"L x 23"W. Load rating: 2,500 lbs. Ship. wt. 31 lbs.

<b>BC039</b>	Rescue Stretcher (Tapered Shape)	\$574.95
<b>BC040</b>	Rescue Stretcher (Rectangular Shape)	\$574.95

## Scoop Stretcher

- ▶ Thermally-treated polymer construction does not get too hot or cold, allowing for greater patient comfort
- ▶ Oval profile and angled handles provide ergonomic ease of use
- ▶ X-ray translucent
- ▶ Twin safety lock for smooth and non-binding locking and unlocking
- ▶ Head section recessed to maintain proper cervical alignment
- ▶ Four length options accommodate patients of different heights: 65", 70", 74", and 79"
- ▶ Narrow foot-end frame for handling in confined areas
- ▶ Easy-to-clean surface is impervious to fluids
- ▶ Folds to 47" for compact storage
- ▶ Includes three burgundy restraints

<b>BD171</b>	Scoop Stretcher	\$765.95
<b>BD172</b>	Storage Case	\$58.95

## Evacuation Chair

Designed for use in confined areas. Ideal for use in restaurants, office buildings, high-rises, airplanes, boats, narrow hallways and stairwells. 2" standard automotive-style patient restraint straps included with each chair. Green vinyl covers are made of 18 oz. antibacterial material and are fungus and rot-resistant for long-lasting durability and also easy cleanup. Dimensions: 35<sup>1</sup>/<sub>4</sub>" H x 18<sup>7</sup>/<sub>8</sub>" W x 22<sup>3</sup>/<sub>8</sub>" D; 8" folded. Ship. wt. 20 lbs.

<b>BB082</b>	Evacuation Chair	\$692.95
<b>BB083</b>	Evacuation Chair with Extended Handles	\$804.95
<b>BB084</b>	Evacuation Chair with Four Wheels	\$763.95

## Plastic Backboard

Rugged, one-piece, lightweight polyethylene spineboard with twelve large handholds for easy handling, built-in runners, low profile and X-ray translucent. Bright yellow. Dimensions: 72"L x 16"W. Load capacity: 400 lbs. Ship. wt. 20 lbs.

One-piece  
polyethylene

<b>AR226</b>	Plastic Backboard	\$157.95

## NAJO Rediboard

NAJO backboards are tough, durable, impervious to body fluids, and 100% x-ray translucent. The RediBoard is an ideal board for tight spaces such as helicopters and basket stretchers. Angled side and foot edges facilitate patient loading. Despite its thin profile, the RediBoard is rated for a 500 lb. load and will float a patient weighing up to 275 lbs. Dimensions: 72" x 16" x 1<sup>3</sup>/<sub>4</sub>". Ship. wt. 20 lbs.

Specify Color: Blue, Red, Yellow, Green, Orange

<b>BA131</b>	NAJO Rediboard	\$158.95
<b>BA132</b>	NAJO Rediboard with Pins	\$168.95

## Immobile-Vac Extremity Splint Set

The Immobile-Vac system provides a rigid splint by removing the air from the splint, allowing it to conform to the exact position of the limb. The vinyl-coated polyester material easily deflates with a handheld vacuum pump (included) and one valve evacuates the entire unit. **Leg Splint** offers speed and reliability in caring for leg injuries. The adjustable, removable and quick-buckle straps cut splinting time down while offering the immobilization required for most injuries. **Arm Splint** forms around the arm without exerting external pressure. No need for tape, boards or gauze. With its open design, patient monitoring is accessible. Ship. wt. 10 lbs.

Includes:

- ▶ Hand pump
- ▶ Leg splint and arm splint
- ▶ Adapter and carrying case
