

## Strobe Beacons

Darley offers three powerful strobe beacons ideal for municipal, fire or law enforcement vehicles. The Renegade is our most compact model measuring 2.9"Dx4.4"H. The 2.2 Joule, double-flash power supply automatically adjusts to function at any voltage from 12 to 48 VDC. The larger Firebolt (5.5"Dx3.6"H) is designed with 2J (single flash) power supplies producing attention getting signals. Pulsator features state-of-the-art power supply for improved light output and warning effectiveness (6 1/2" D x6"H).

## FireBeam® Warning Light

The world's brightest compact beacon is perfect for indoor vehicle warning power on your dash or rear deck. The 55-watt rotating halogen lamp produces a brilliant 68,000 CP of signal light. Choose from single speed model for 175 flashes per minute or dual speed featuring a convenient slide switch that allows you to choose either 95 or 174 flashes per minute. For optimum performance get the optional Ultra-Flash mirror that increases the flash rate seven times! Comes standard in your choice of Lexan color dome or the optional half domes (with clear FireBeam® dome) in the color of your choice for added versatility. Half domes easily snap into place over the FireBeam®; you can even use two snapped on back to back to create a distinct warning color. FireBeam® purchase includes 12-volt, magnetic mount, cigarette lighter plug, ten-foot cord and black half-dome backflash cover. *Ship. wt. 4 lbs.*

Optional Ultra-Flash mirror increases the flash rate seven times, creating 1225 flashes per minute when operating at high speed and 665 flashes per minute at standard speed.

## Sentry® Warning Beacon

Federal Signal's Sentry® beacon is a reliable, effective warning light in an attractive, compact package. The large parabolic reflector and brilliant 55-watt halogen bulb combine to produce an intense 80,000 candelas per flash. This beacon is available in 12 or 24 volts and offers excellent 360° warning coverage with 95 flashes per minute rotators. Made of non-corrosive, high-impact polycarbonate, which provide extended service life. It has a twist-off dome, and all major components are field replaceable without the use of tools. Meets NFPA 1901. *Ship. wt. 2 lbs.*
