

## A. Dry and Store Hose Rack

With the Dry and Store Hose Rack, you can dry hose and store it on the same unit. Unit consists of the top mounted drying rack where hose and other equipment dries naturally and quickly, and one lower level storage rack. Dry up to 900' of 1½" to 1¾" hose or up to 600' of 2½" to 3½" hose and simultaneously store up to 650' of 2½" hose. Heavy-duty steel construction with durable red powder coat finish. Ideal for use in smaller stations. *Ship. wt. 250 lbs.*

**BB039** Dry and Store Hose Rack \$1,839.95

## B. Mobile Hose Dryer

With the Mobile Dryer, equipment dries naturally and quickly with fresh air, prolonging the life of your equipment. Used to dry immersion entry suits, wet or dry dive gear, and decontaminated hazmat entry suits. The Mobile Hose Dryer holds up to 1200' of 1½" or 1¾" or up to 800' of 2½" - 3" hose. *Ship. wt. 220 lbs.*

- ▶ SAFE - no more climbing to hang or retrieve hose
- ▶ Costs thousands less than conventionally built towers
- ▶ Stores and dries in small area
- ▶ Durable red powder coat finish
- ▶ Dimensions: 80"Lx33"Wx 88"H

**AS703** Mobile Hose Dryer \$1,539.95

## C. Hose Rack Brackets

### Build Your Own Hose Rack

Protect your hose with ample ventilation and allow quick and easy access for inspection. Build your own rack with pipe and lumber using these handy brackets designed for easy adjustable installation. Brackets are lightweight, high-strength aluminum. *Ship. wt. 4 lbs.*

- ▶ Bracket easily adjusts up or down pipe for desired height

**AR346** Small Bracket for 1½" Pipe \$33.95

**AR347** Large Bracket for 2" Pipe \$35.95

## D. The Hose Coiler

### Roll Hose Quicker and Easier Than Ever

Designed by a firefighter to make it quicker and easier to coil 1" to 3" double jacket hose in lengths up to 50 feet (single jacket forestry hose in lengths of 100 feet). Simply attach the mounting bracket to the rear of your apparatus, pickup truck or any emergency vehicle waist-high, insert the coiler crank and roll away. The coiler itself is made of two parts which nest together for compact storage. Once the hose is coiled simply remove the tight coil from the inside section and you're done; no more bending over to pick up heavy coils. Use this system anywhere you choose to install the mounting bracket (included). Also available are trailer hitch mounts. *Call for pricing. Fits in hitch receiver and Wildland Mounts pound in the ground.*
