CMC Rescue 8 Descenders

UL Classified to NFPA 1983 - General Use

The classic CMC Rescue 8 has been refined for even better performance with the current selection of rescue rope sizes from 7/16" to 5/8". Today 5/8" rope is no longer common and the smaller dimensions of the new design provide greater control. CMC's exotic proprietary finish on the aluminum model provides outstanding wear resistance. The nickel-chrome plated steel model excels in the exceptionally high wear situations such as helicopter operations or sandy, gritty environments. The extended carabiner hole provides room for multiple carabiners. *Large hole diameter: 2.5". Ship. wt. 1 lb.*
