

Apparatus Master Switches

It's recommended equipment of the NFPA for protection from short circuits. All switches disconnect the battery from the electric system at the turn of the switch. Use on apparatus with single or dual battery systems. Switch positions include: OFF, BATT. #1, BATT. #2, and BOTH. 5 1/2" diameter, for use on 6-36 volt systems. U654 meets KKK-A-1822A ambulance specifications, includes terminals for battery pilot lights. All metal T227 is a 2-position switch for single battery system, 6 or 12 volt only. 2 1/2" diameter. Continuous duty rating of 175 amps. *Ship. wt. 1 lb.*

T228	Battery Selector Switch	\$37.95
U654	Battery Selector (Meets KKK-A-1822A)	\$89.95
T227	Battery Selector Switch	\$24.95

Automatic Battery Charging Systems

Auto Charge 11 - For Dual Batteries

Auto Charge 11 is a fully automatic battery charger for vehicles with dual battery systems. The new and improved unit contains two completely independent chargers to sense and control the current to the batteries. Thus parasitic loads on one battery have

no effect on the second battery. Total output current is limited to protect the charger but may be supplied to either battery if the adjacent battery does not require it. Normally the current output is proportioned between batteries as required. Comes complete with charging indicator panel. *Three-year warranty. 120v input. Ship. wt. 12 lbs.*

Specify voltage: 6, 12, or 24

Y644	Auto Charge 11	\$367.95
------	----------------	----------

Auto Charge 12 - For Single Batteries

A fully automatic battery charger for vehicles with a single battery. Remote voltage sensing provided to compensate the charger output for the voltage drop in charging wires. Features ammeter to indicate charge rate and has no water boil off. Constructed for mounting in the vehicle. 120v input. *Three-year warranty. Ship. wt. 12 lbs.*

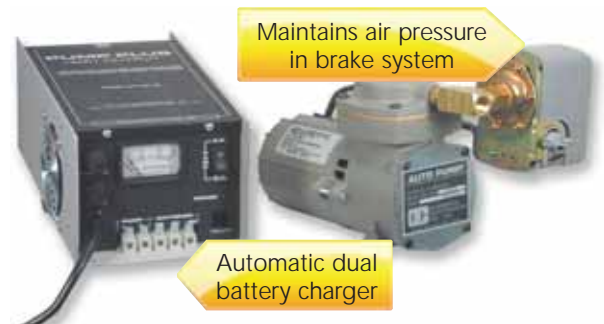

Specify voltage: 6, 12, or 24

Y645	Auto Charge 12	\$322.95

Pump Plus

Air Compressor/Battery Charger Package

The Pump Plus is a small air compressor and a completely automatic battery charger packaged together. Air compressor is designed to be mounted on vehicles with air brakes to maintain the air pressure in the air brake system while the vehicle is not in use. A pressure switch senses the system pressure and operates the compressor whenever the pressure drops below a predetermined level. Battery charger is completely automatic and is for vehicles with dual battery systems. The batteries are automatically charged and maintain full charge while still being isolated from each other. This unit contains two independent chargers to sense and control the current to the batteries. Designed to mount directly on the vehicle. 12v compressor has 1-yr. warranty; Battery Charger comes with 3-yr. warranty. *Ship. wt. 20 lbs.*

Maintains air pressure in brake system

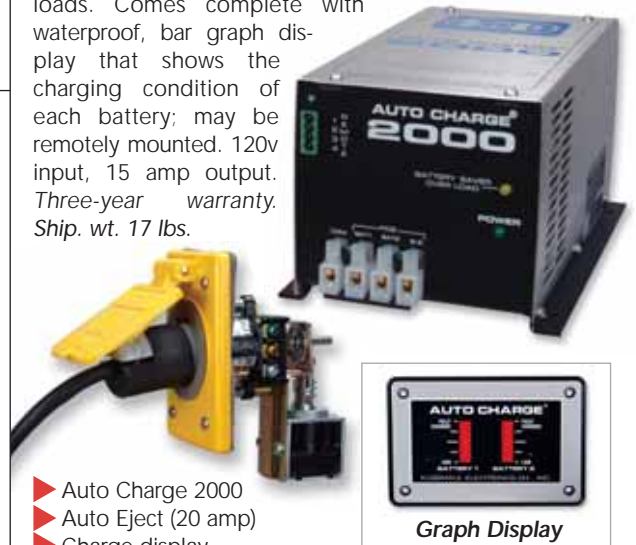

Automatic dual battery charger

Z112A	Pump Plus Package	\$702.95
Z111	Air Compressor Only	\$405.95
Z112	Air Compressor, 115v AC Converter	\$456.95

Auto Charge 2000 Kit

Complete Charging System at An Affordable Price

Auto Charge 2000 is a high-output, dual battery charger that independently charges two batteries. Includes the Auto Charge 2000 automatic battery charger and Auto Eject (20 amp) automatic power line disconnect, providing a complete vehicle charging system that saves you money. Unique electronic sensing circuits sense the true battery voltage while eliminating the need for external sense wires. There is no overcharging and no water boil off. What's more, a built-in battery saver handles the problem of battery loading from rechargeable hand lights, portable radios and other loads. Comes complete with waterproof, bar graph display that shows the charging condition of each battery; may be remotely mounted. 120v input, 15 amp output. *Three-year warranty. Ship. wt. 17 lbs.*
