

Paratech Stabilization & Support Systems

Vehicle Stabilization Kit

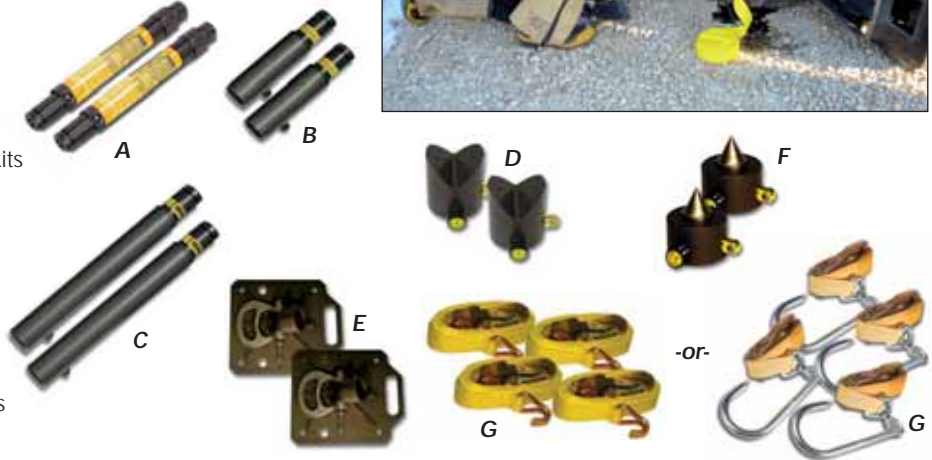

Paratech's Vehicle Stabilization Kits have the strength and flexibility to handle any size vehicle, any time, anywhere! This includes sub compact cars, buses, cement trucks, and even train locomotives! Additionally, these components provide added value of being interchangeable with your other Paratech Strut kits for building collapse and trench rescue. They are sturdy, reliable, easy-to-use and the strongest on the market! The Vehicle Stabilization Kit has a maximum load capacity up to **40,000 lbs.** GVWR with a 4:1 safety factor and can stabilize most single vehicle applications. *Ship. wt. 114 lbs.*

Features:

- ▶ Strongest VSK on the market
- ▶ Can develop into a complete system as components are added
- ▶ Easy-to-maintain
- ▶ 5-year guarantee
- ▶ Compatible with other Rescue Strut kits

Cat#	Description	Maximum Load Capacity	Price
AZ462	Vehicle Stabilization Kit	40,000 lbs.	\$3,039.95
BG157	Highway Vehicle Stabilization Kit (Call for Details)	70,000 lbs.	\$5,465.95
BG158	Interstate/Motorway Vehicle Stabilization Kit (Call for Details)	120,000 lbs.	\$14,392.95

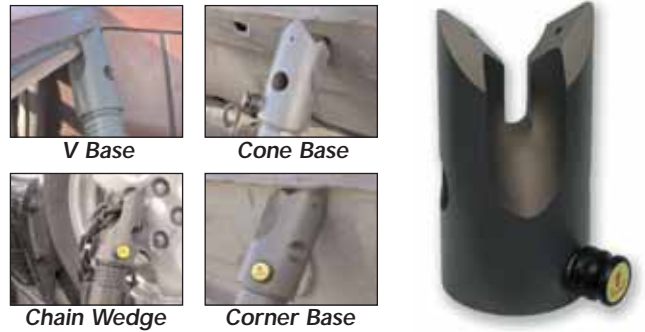

Multi-Base

Paratech introduces the new Multi-Base for use in a wide array of vehicle stabilization and structural collapse scenarios. Arrive on scene knowing you will always have the right tool. The Multi-Base is four bases in one: use either of its two top points as a "Cone Base", angled center area as a "V-Base", engineered deep cut center slot as a "Chain Wedge" and its angled top shape as a "Corner Base".

BG529	Multi Base	\$159.95
