## Diamondback™ LED Perimeter Warning Light

These LED lights provide incredible brightness, unmatched directional visibility, customized pattern and styling flexibility, and unique serviceability. Each light incorporates patented V-LED™ technology, allowing for the LEDs to be field serviceable and upgradeable. The light flash patterns can be completely re-configured via wireless downloads without removing the lens or lamp from the vehicle. Loaded with powerful innovations, the Diamondback™ delivers unprecedented performance to the emergency response community.

- ▶ Patented V-LED™ technology, for superior thermal efficiency & excellent brightness
- ▶ Four independently controlled LED segments allow for unmatched flash pattern options: (left/right, up/down, x-pattern, chasing and many more)
- ▶ Flush mount design utilizes only four screw holes & a wire exit hole in vehicle
