

## Sensit® P100 Personal Gas Monitor

Detects hazardous levels of Carbon Monoxide, Hydrogen Sulfide or Oxygen

The SENSIT® P100 has high and low alarm levels through audio, visual and vibratory warnings. TWA and STEL alarms are also included, as well as alarm-event data logging. Durable rubber-coated housing withstands incredible abuse and is nearly waterproof.

- ▶ Easy-to-use one button operation
- ▶ Operates 2 years before service is required, resulting in more years of service
- ▶ Serviceable sensors
- ▶ Easy calibration
- ▶ Made in USA
- ▶ Limited 2 year warranty (including sensors)

## ThunderBolt® Storm Detector

Advanced Storm Detection in the Palm of Your Hand

If you hear thunder, forget counting...It's already too late! Thunderstorms and deadly lightning can suddenly come out of nowhere, catching anyone off guard and unprepared. The fact is, when you hear thunder, you're already in range of a lightning strike. With Spectrum Electronics ThunderBolt® Storm Detector, you'll be warned to take shelter long before you're in danger! ThunderBolt® is not a weather alert radio and requires no cellular signals or any type of radar. ThunderBolt® technology is self-contained, "the science is in your hand". ThunderBolt® gathers data independently of any other weather information source. Used and trusted worldwide, ThunderBolt® is the Ultimate in storm detection technology.

- ▶ 75-mile storm detection range
- ▶ Warning modes: Over 50 text messages via 2"x16" LCD display, red LED warning light, audible tone
- ▶ Operating life: 45,000 hours
- ▶ 120VAC / 220VAC Low-noise AC adapter or 9V battery
- ▶ Dimensions: 6.4"x3.4"x1.5"
- ▶ Ship. wt. 1 lb.

## WindMate™ 300 Wind Meter

The first wind meter with a humidity sensor that never needs calibration, the extensive features of this unit makes it the first choice for outdoor professionals as well as fire and industrial management. It is equipped with a backlight and measures wind direction and cross, head/tall wind. The wind vane and jackknife case assure accuracy. Powered by a 400-hr. replaceable lithium battery, WindMates are accurate to within 3%. Each unit is water-resistant, has a tripod fitting and auto shutoff feature, plus a 2 year warranty!

- ▶ Current, maximum and average wind speed (5,10,13 seconds)
- ▶ Units measured: mph, kt, kp/h, bf, fpm, m/sec.
- ▶ Wind direction, using built-in digital compass
- ▶ Cross, head and tail wind calculation
- ▶ Temperature
- ▶ Windchill
- ▶ Relative humidity
- ▶ Wet bulb
- ▶ Dewpoint
- ▶ Delta T
- ▶ Comfort index

**BH022** WindMate™ 300 Wind Meter \$204.95

## FireCalc Pocket Calculator

The FireCalc Pocket Calculator is back. The FireCalc is the only calculator on the market to offer solutions for engine pressure, friction loss, application rate, flow rate, reaction force, etc. A training tool every firefighter needs when determining fire ground hydraulics. Ship. wt. 1 lb.

- ▶ Metric capability
- ▶ Auto power off
- ▶ Mathematical functions
- ▶ Review features
- ▶ CE approved

**BH030** FireCalc Pocket Calculator \$37.95
