

## RAM Entry Tool Gets The Job Done

Two different models of RAM tool allow for one or two-person operation. It is easy-to-carry, easy-to-use and easy-to-stow. Durable and long-lasting construction of epoxy/steel striking head reinforced with fiberglass rods, safety grips of non-slip, electrically nonconductive Celtex with vinyl clad, high-tensile strength and aircraft steel cable cores. **RAM I** (shown) is designed for one-person emergency entry. 30" long and weighs 35 lbs. The kinetic energy is greatly increased to 20,000 lbs. **RAM II** is designed as a two-person ram which may be used by one strong person. This two-person Ram is 30" long. *Ship wt. 45 lbs.*

One or two-person operation

<b>AA680</b>	Ram I Entry Tool	\$249.95
<b>AE096</b>	Ram II Entry Tool	\$299.95

## Hinge Hook Keeps Almost Any Door Open

As any firefighter knows, closed doors can trap you in a room. Traditional wedges have been used to keep doors open but these can come loose and dislodge if the door is knocked or bumped. The Hinge Hook is a simple, reusable, more reliable device that can be inserted over the hinge of almost any door to aide in preventing door closure without damaging the door. It's made of zinc-coated steel and is welded and bent in such a way as to keep the door open at a 75° angle or less. The Hinge Hook is light enough to be carried on your turnout gear, high rise packs and belts. What's more, a handy multipurpose accessory ring can hold a handlight, flashing strobe, cyalume stick, etc. *Ship. wt. 1 lb.*

<b>AM184</b>	Hinge Hook	\$10.95

## The "Door Marker"

### A Method Of Unspoken Communication

Using the Door Marker as a method of unspoken communication promotes fire-fighting efficiency and safety. These safety orange, polyethylene markers are highly visible, even under typical primary search conditions. They serve as an efficient method to control search in any multi-room occupancy, hotel, office building and residence. Door Markers will help ensure that search efforts are not duplicated, but more importantly, that no room has been missed. They also afford safety to members conducting the search; as seen in the first illustration, the door cannot close and lock someone behind. It also serves as a visual indicator to others that a firefighter is in the room. Standard operating procedures for using these door markers are illustrated above. *Color Orange. Ship. wt. 1 lb.*

"Search In Progress"

## The Glas-Master

### Removes Glass in Less Than a Minute

The Glas-Master is truly an extraordinary tool that is manually operated; no electricity or hydraulics needed. No other tool cuts glass windshields faster and more effectively, helping reduce rescue time significantly. Cuts on pull stroke thereby pulling glass to the outside, away from the victim. It can also be used on fiberglass, wood, plaster or even underwater rescue. What's more, the Glas-Master has its own storage of the spring-loaded center punch so it won't get lost or misplaced when it is needed most. *Ship. wt. 4 lbs.*

▶ Window punch ▶ "T" handle ▶ Spike ▶ Blade with cover ▶ Front guard

<b>AB885</b>	Glas-Master	\$174.95

## "V" Blade Rescue Knife

Cuts through seat belts. Precision made of high-strength aluminum alloy. Tip fitted with Dzus Key for opening aircraft panels. Will cut 10,000 lb. strength webbing with one stroke. *Ship. wt. 3 lbs.*

<b>L470</b>	"V" Blade Rescue Knife	\$56.95
<b>L470X</b>	Replacement Blade	\$16.95

## Duck Bill Lock Breaker

All steel tapered head. Designed to be placed in the shackle of a padlock and when hit with a mallet or the back of an axe, it easily spreads the shackle open. Celtex insulated steel doweled handle. *Ship. wt. 10 lbs.*

<b>W515</b>	Duck Bill Lock Breaker	\$109.95
-------------	------------------------	----------

## Spring Loaded Window Punch

Use point to break glass for emergency entry, to help trapped accident victims. *Ship. wt. 1 lb.*

<b>T294X</b>	Window Punch	\$10.95
--------------	--------------	---------

## Windshield Wrench

The Windshield Wrench designed by expert rescue personnel, shortens the time required for windshield removal. Its simple one-armed operation guards against rescuer fatigue while minimizing the amount of flying glass. The wrench features hardened steel construction for durability, and a molded rubber handle design assures maximum comfort and grip. *Ship. wt. 5 lbs.*
