

## Portable Scissor Lift Tables

Heavy-duty powered lift tables are designed to transport and elevate your heaviest loads. A heavy-duty 12V DC power unit with deep cycle battery and an on-board battery charger is standard, a battery charge indicator is optional. Features 8" phenolic casters (2 swivel and 2 rigid), floor lock, and patented electric pinch point guards. Push buttons to raise and lower lift, located on power unit and in the pendant-style push-button control, are standard. Key-operated ON/OFF control for better security is built into the power unit. Minimum frame width is 34". Add 25" to platform length for the overall length.

### Model Number Format PST - (width)(length) - capacity - raised height

VERTICAL TRAVEL	PLATFORM WIDTH	PLATFORM LENGTH	CAPACITY (POUNDS)	RAISED HEIGHT	LOWERED HEIGHT	TRAVEL TIME (SEC)	NET WT. (POUNDS)
36"	24" - 48"	48" - 72"	1,000	46"	10"	9	1408
36"	24" - 48"	48" - 72"	2,000	46"	10"	14	1437
36"	24" - 48"	48" - 72"	3,000	46"	10"	20	1491
48"	24" - 48"	64" - 90"	1,000	58"	10"	14	1496
48"	24" - 48"	64" - 90"	2,000	58"	10"	20	1580
48"	24" - 48"	64" - 90"	3,000	58"	10"	28	1780

## Power Traction Drive System

Reduce worker fatigue and injury with the Portable Traction Drive Option. This factory installed option is available on portable equipment including the Portable Scissor Table, Pallet Master/Pallet Server, Tilt Master, and High Rise Lift Truck. An alternative to costly fork trucks, the PTDS includes a combination throttle / direction butterfly style controller, an adjustable yoke and an auto reverse emergency "belly" switch. This state of the art option allows a single operator to safely and ergonomically transport products. Power pack is 42" wide. Maximum speed is 2.5 m.p.h.

MODEL NUMBER	DESCRIPTION	NET WT. (POUNDS)
PTDS	POWER TRACTION DRIVE SYSTEM	156

## Air Bag Scissor Lift Tables

Air Bag Scissor Lift Tables use factory air for clean, dependable, maintenance free operation. Designed to raise products up to an ergonomic working height. Safety features include pressure relief and pinch point guard. Must be used in conjunction with a filter/regulator. We do not recommend the use of a lubricator. Includes hand held control with up and down button mounted on 8 ft. cord. Incoming air must be clean, dry and regulated to 80 psi (min.). Requires 1/2" incoming airline. Standard features are adjustable upper travel limit valve, state-of-the-art lifetime lubricated bearings and maintenance prop. Other sizes available, contact factory.

### Model Number Format ABLT - (width)(length) - capacity - raised height

VERTICAL TRAVEL	PLATFORM WIDTH	PLATFORM LENGTH	CAPACITY (POUNDS)	RAISED HEIGHT	LOWERED HEIGHT	TRAVEL TIME (SEC.)	NET WT. (POUNDS)
