

ANR ProGT

aviation Headset

Introducing Peltor's professional series Active Noise Reduction (ANR) aviation headset – The ANR ProGT. This headset features Peltor's latest advancements in ANR technology for increased low frequency attenuation, improved earcup design for a better passive attenuation and the ultimate noise cancelling boom microphone.

- ▶ Gel earseals & carrying case included
- ▶ Automatic ANR shut-off
- ▶ Battery life indicator
- ▶ Weighs only 13.5oz! including gel earseals

ANR ProGT

aviation headset

Peltor's latest line of aviation headsets exhibit exceptional style and performance along with the protection, durability and comfort that is expected from the global leader in communication headsets. Our new ANR ProGT series offers up to 20 dB of active noise cancellation in the lower frequency range. Features include gel earseals, failsafe mode in the event of a power loss, deep earcup design and an all new noise cancelling flexible gooseneck boom arm.

In-line battery compartment with electronics to automatically turn off the ANR after 4 minutes once headset is removed

Active Noise Reduction Headsets:
