

EARCOM™

RADIO ACCESSORY

Peltor's new EarCom is a discreet, effective 2-way communication solution. Incorporating bone conduction technology, this earpiece offers both radio transmit and receive in one simple, comfortable earpiece. The "in-ear", low profile design makes this product the ideal choice for the following applications:

- ▶ **Law enforcement: uniformed and bike patrol**
- ▶ **Covert surveillance and protection**
- ▶ **SWAT & special ops**
- ▶ **Military**
- ▶ **Casino, convention & event security**
- ▶ **Respirator and HazMat communication**
- ▶ **First Responders and Incident Commanders**

High quality radio receive audio.
Monitor radio traffic discreetly

Vibration conducting microphone for outstanding in-ear voice pick-up. No need to yell, both regular and whisper voice levels will transmit perfectly

Curly section for unlimited head movement

Small finger PTT with velcro strap can be custom mounted (hand, finger, belt, sleeve, pocket, jacket collar, etc) allowing for hands-free radio transmit ability
