

34319

3M™ Chemical Sorbents are powerful enough to handle acids (including hydrofluoric acid), bases, coolants and most other hazardous fluids. They are a safer choice because they resist reactions with most hazardous chemicals. They will also absorb petroleum-based fluids, non-aggressive chemicals and aqueous based solutions, reducing the need to stock several different sorbent types for emergency response.

## A Complete Range of Products Includes:

- Sorbent Folded
- Sorbent Pads
- Sorbent Rolls
- Sorbent Mini-Booms
- Sorbent Pillows
- Sorbent Particulate

## Suggested Applications

- Cleaning up hazardous chemical spills, drips, and leaks
- Ideal for rapid response containment and cleanup
- Hazardous material shipping
- Cover bench tops in anticipation of a spill
- Wiping up contaminated areas
