

Ergonomic Worker Seats

From a low crouch to a standing position, the seat height of the CPRO-200 and CPRO-600 can be adjusted in 2" increments by removing the seat and hooking it to the horizontal bars located on the chair frame. These units have four rubber "shocks" under the seat base that allow the seat to tilt forward, left, and right so it can accommodate your body movements. The front tilted position of the seat helps the user maintain the natural posture position of the spine.

The portable work chair, model CPRO-800LP, is not only convenient but easy to use. Simply unfold the rear legs and slide the contoured padded seat to the desired ergonomic height. The infinite adjustment guarantees the optimum work posture. Folds up to a 4" profile for easy portability and storage.

CPRO-800LP [®]	13" x 20"	13½" x 10"	18" to 33"	300	20

Ergonomic Lumbar Support Stand

Workers who stand in production lines for long periods of time begin to feel lower back strain. The Support Stand helps prevent this strain by allowing the adjustable pad to take pressure off the lower back. Adjust the unit by pulling the lock out and sliding the back support up or down to the desired lumbar height. The cushioned back support adjusts up, down, and articulates left and right to provide the best support and comfort. Unit has mold-on-rubber wheels and handle for convenient positioning from workstation to workstation.

ELSS-3548	15¾" x 19½"	11" x 6"	35" to 48"	48"	21

Desk Mover

Move fully loaded desks without removing drawers and files. To use: position the 31½" wide by 16" deep platform under desk pedestals and depress handle to raise desk and engage safety latch. Steel lift platform and removable handle have a mar and skid resistant vinyl coating to protect the desk. Elevated desk moves easily with or without handle on 3" swivel rubber casters.

Fork Truck Seats and Accessories

Ergonomic and comfortable seat design helps provide optimum body support for individual operators. Replace worn or broken fork truck seats with our easy to install universal mounting design. Standard features include: ergonomic seat design, waterfall front on LTSD series, vinyl or cloth material, low profile design, safety seat switch, storage pockets, seat back angle adjustment 8°, adjustable lumbar support, and retractable safety belt.

Ergo-Turn System - Smooth pivoting motion enables driver to turn seat 30° left or right of center position. Swivel system can be incorporated with air suspension system for total driver ergonomics.

Air Suspension System - Minimizes harmful vibration to fork truck driver. Reduces fatigue and back pain.

Seat Safety Switch - Prevents fork truck from operating when an operator is not sitting on the seat.

Chrome Hip Restraints - Used in place of arm rests to stabilize and secure the operator in the fork truck seat.

Flip Up Arm Rest - Flip up arm rests are moveable to allow easy access on and off fork truck.
