## 3M™ Chemical Sorbent Particulate P-500

6579

Particulate materials are used in packaging applications where breakage of a container could cause a release of a hazardous liquid. This material may also be sprinkled over a spill or broadcast over a large area. The 3M™ Chemical Sorbent Particulate P-500 is a non-selective sorbent which will “sorb” most aggressive chemicals and is designed for use in spill response applications.
