LIEBERT POWERSURE® PSP OFF-LINE UPS

FULL-FEATURED OFF-LINE UPS PROVIDES COST-EFFICIENT, SPACE-SAVING POWER PROTECTION

Liebert PowerSure PSP is an economical, full-featured UPS that delivers cost-effective power protection in a compact package. It features a configurable input power selector switch, offering the user a wide input voltage window. The Liebert PowerSure PSP is available in three sizes: 350, 500 and 650 VA at 120 VAC. For maximum flexibility with a variety of computing equipment, the unit includes a choice of communications—USB, serial or contact closure.

Liebert PowerSure PSP Offers A Variety Of Standard Features:

- Four battery-backed UPS outlets with spacing to accept transformer blocks
- Two surge-only outlets
- Greater than four minutes of battery backup at full load
- Wider input voltage window
- User replaceable hot-swappable batteries
- Full-sequenced battery testing
- Lightning and surge protection
- Data line surge protection for telephone/fax/DSL/modem
- USB, Microsoft Windows (XP and 2000) and Mac (OS X version 10.2 or later) Certified
- Two-year warranty

User replaceable Hot-Swappable Batteries
Increase product life and offer prolonged, reliable UPS performance.

- Liebert MultiLink® Automated System Shutdown Software

LIEBERT POWERSURE® PSA LINE-INTERACTIVE UPS

VALUE-ADDED UPS COMBINES ADVANCED FEATURES WITH LINE-INTERACTIVE PERFORMANCE

Liebert PowerSure PSA is a line-interactive UPS available in four sizes: 350, 500, 650 and 1000 VA at 120 VAC and 230 VAC. The Liebert PowerSure PSA features double boost/single buck technology that prolongs UPS battery life by providing automatic voltage regulation (AVR) and compensating for incoming power fluctuations before going to battery. The unit also includes a microprocessor-based control and monitoring package with dual color LED indicators on the front panel for easy operation. A choice of communications includes USB, serial or contact closure.

Other Standard Features Included On All Liebert PowerSure PSA Models:

- Lightning and surge protection
- Data line surge protection for telephone/fax/DSL/modem
- USB, Microsoft Windows (XP and 2000) and Mac (OS X version 10.2 or later) Certified
- 4 or 6 battery-backed UPS outlets with space for transformer blocks, and two surge-only outlets
- Continuous overload detection
- Hot-swappable user replaceable batteries
- Greater than five minutes of battery backup time at full load when utility fails
- Battery start (dark start) capability
- Full sequenced battery testing
- Two-year warranty

Liebert Power Monitoring Capabilities

The operation of the Liebert PowerSure PSA can be monitored using

- Liebert MultiLink® Automated System Shutdown Software
- Third Party Monitoring System
