Features and Benefits
– PVC-FREE panels feature a proprietary non-vinyl face material that is free of PVC and Phthalates
– Clean Room™ panels can be used in clean room environments up to class 100
– Washable and Scrubbable finish–Impact, Scratch and Soil Resistant
– Panels meet USDA/FSIS requirements for food processing areas
– *ClimaPlus*™ 30-year lifetime no-sag system warranty

Applications
– Kitchens and food preparation areas
– Restrooms and utility areas
– Locker rooms
– Parking garages
– Exterior protected soffits

Substrate
– Gypsum panel

Smooth-textured panel - PVC-FREE

Smooth-textured panel - Vinyl (PVC)

Physical Data/Footnotes

Product literature
Data sheet: SC1820

ASTM E1264 classification
Type XX, Pattern G

ASTM E84 surface burning characteristics
Class A
Vinyl
Flame spread: 25
Smoke developed: 50
PVC-Free
Flame spread: 25
Smoke developed: 50
CLEAN ROOM
Flame spread: 25
Smoke developed: 50

Weight
1/2″ = 2.00 lb./sq. ft.

Thermal resistance
1/2″ = up to R-0.45

Maximum backloading
See Warranty for details.

Maintenance
Can be cleaned easily with a damp sponge. Use mild detergent and water – do not use acetate, ammonia or high concentration of chlorine, bromide or other harsh chemicals.

U.S. Coast Guard acceptance
Approved for use on merchant ships.

Footnotes
1. Dependent on location; see Sustainability selector.
2. Fire-rated items: see UL design details.
3. NRC rating is .10. USG does not consider a ceiling panel to be acoustically rated if NRC is less than .50

4. LR values are shown as averages.
5. For details, see Sustainability selector.
6. Field-cut edges of CLEAN ROOM panels must be sealed with white latex paint.
7. Clean-room-rated applications require a suspension system with gasketed tee flanges such as DONN CE.
8. High Scrubbability/High Washability– PVC-FREE panels have been tested to withstand 10,000 scrub/wash cycles (ASTM D2486/ASTM D4828)
