

Sick of using five remotes just to watch a single DVD? Hate having to manually turn off every light at the end of every day? Wish you could listen to music in every room without carrying your iPod with you?

Control4's suite of Home Controllers makes total home entertainment and control possible, easy and affordable for everyone. Our wide range of Home Controllers enable everything from theater or one-room control to advanced multi-room control of media, lighting, temperature and security.

It's all part of the Control4 vision. We bring the benefits of a truly connected digital home to more people with solutions that are affordable, easy to install and designed for any home or lifestyle.

Features & Benefits

- **Easy to use** – Control home theater, multi-room music, lights, temperature and security systems through simple, intuitive user interfaces for effortless entertainment, comfort and convenience, and peace of mind.
- **Easy to install** – Enjoy quick, hassle-free installations in new construction or existing homes thanks to Control4's standards-based wired and wireless home-control solutions.
- **Incredible value** – Experience robust, high-performance home control at a fraction of the price of other solutions.
- **Modular solution** – Start by controlling a single room or a single function – like lighting – and easily add features and functionality wherever you want when it makes sense for you.
- **Total control** – Control your music, theater, lighting, temperature, security and almost any electronic device with Control4. And you always have control of your system because the programming is stored on the controller.

The intelligent Control4® Home Controllers enable control of lighting, security, HVAC and A/V systems from any TV with a simple on-screen user interface.

Control4® Home Controller HC-200

The affordable Control4® Home Controller HC-200 adds intelligent one-room, home theater, or small-system control to any home. The compact design of the HC-200 makes it easy to mount in any rack or behind any TV. Generally recommended for one-room systems or to add local on-screen control to any TV.

Control4® Home Controller HC-300

The Control4® Home Controller HC-300 provides a solid foundation for total home control—with all the power of the HC-500—in a smaller, more affordable form-factor. Generally recommended for the average home-automation system.

Control4® Home Controller HC-500

The Control4® Home Controller HC-500 expands the number of controllable devices and adds 160 GB of digital media storage. With even more inputs and outputs than the HC-300, the HC-500 is generally recommended for larger systems.

Control4® Home Controller HC-1000

The powerful Control4® Home Controller HC-1000 makes it easy to automate any large home or building. When combined with another Control4® Home Controller, the HC-1000 brings lightning-fast responsiveness to your home-automation system as well as 500 GB of digital media storage. Generally recommended as supplemental Controller, to increase speed and efficiency in large systems.

* Video Sense Loop connections enable discrete on/off control of video playback devices by sensing video signals.

One-Touch Home Theater

Simplify the control of everyday audio, video, and home theater components, eliminating the need for multiple remotes.

Multi-Room Music

Enjoy digital music collections—like XM or Sirius, Rhapsody, or your personal iPod library—anywhere in your home.

Smart Lighting

Create Lighting Scenes that offer simple control over lights and outlets. Control4 smart lighting uses timers, Motion Sensors, and Dimmers to enhance security and reduce energy costs.

Advanced Temperature Control

Help conserve energy and ensure comfort with pre-programmed temperature controls.

Safety & Security

Integrate a security system or IP cameras to monitor home security from virtually anywhere.
