Features and Benefits

- Cast product with durable surface that resists scrapes commonly caused by accessing the ceiling plenum.
- Combine 12"x12" tile with the Down® brand DX®/DXL™
 concealed suspension system to create a nearly
 monolithic ceiling surface.

Applications

- Administrative offices
- Schools
- Financial institutions
- Religious buildings

Substrate

Cast mineral fiber

Grid Profile Options													
	Composite of "F" Fissured ceiling products shows range to be expected in a production lot, and possibly in the same panel or tile. Ranges are random and cannot be specified. Texture appearance will vary based on ceiling height, installation methods, and natural variations of the product.												

Physical Data/ Footnotes

Product literature Data sheet: SC1816

ASTM E1264 classification

Type III, Form 4, Pattern D

ASTM E84 surface burning characteristics

Class A

Flame spread: 25 Smoke developed: 50

Weight

1.75 lb./sq. ft.

Thermal resistance

Maximum backloading See Warranty for details.

Maintenance

Can be cleaned easily with a soft brush or vacuum.

Texture

The manufacturing process for cast ceiling panels creates natural, subtle texture variations, which is a distinguishing feature of these products. Because of potential variances between production dates, we recommend ordering and installing cast products by production lot number.

Footnotes

Applies when USG acoustical

ceilings recycling program is utilized. 2. Dependent on location: see

Sustainability selector.

 LR values are shown as averages.
 For details, see Sustainability selector.

5. Contact USG for adhesive recommendations for 12"x12" glue-up applications.

6. Not UL Classified for acoustics.
