

ARDEX X 32™ MICROTEC® Exterior Self-Drying Thin-to-Thick Bed Mortar

ARDEX X 32™ with Revolutionary MICROTEC® Technology
Delivers Tangible Benefits during Tile & Stone Installations

ARDEX MICROTEC® Technology

ARDEX innovation delivers the next generation in polymer modified Portland cement-based technology, ARDEX MICROTEC® Technology. Comprised of a specialty blend of high performance microfibers and exclusive ARDEX polymer specialty cements, ARDEX MICROTEC® Technology provides real, tangible benefits for installers that translate into proven advantages by reducing time and costs during the installation.

ARDEX X 32 is formulated to handle today's most challenging installations including setting all types of tile and stone, moisture-sensitive natural stone, marble, granite, gauged stone tile and all types of mosaic tile over exterior concrete and masonry surfaces or common interior surfaces including floors, walls and countertops.

Benefits:

- Can be used as a thin-set, medium- or thick-bed mortar
- Specially suited for moisture-sensitive stone
- Fast setting - grout in 3 hours
- Excellent sag resistance
- Easy to mix and apply
- Use for floors, walls and countertops
