

ARDEX P 51™ Primer

Solvent-free. Improves the adhesion of ARDEX products over standard absorbent dry concrete substrates.

Product Capabilities:

ARDEX P 51 is a solvent-free primer that improves the adhesion of ARDEX products over standard absorbent dry concrete substrates only.

Non-porous substrates, burnished concrete, terrazzo, quarry and ceramic tile, wood, non-water-soluble adhesive residues and epoxy coatings must be primed with ARDEX P 82 ULTRA PRIME. Please refer to the ARDEX Technical Brochure for more information.

Benefits:

- For standard absorbent concrete
- Concentrated primer - dilutes with water
- Seals the substrate
- Improves the bond of ARDEX underlayments and toppings
- For interior use only
