

ARDEX Feather Finish®

Use ARDEX Feather Finish for flash-patching, skim-coating and to fill in ridges, gouges, depressions and seams on virtually any type of subfloor.

Product Capabilities:

ARDEX Feather Finish provides a smooth, permanent finish to a variety of substrates prior to the installation of today's demanding floor coverings such as sheet vinyl and VCT. ARDEX Feather Finish allows the installation of most floor covering in as little as 15 minutes over concrete, wood, ceramic, and quarry tile - all without priming or the use of a latex additive.

Engineered around a self-drying, Portland cement-based matrix, all of the water is chemically combined within the product itself. Using this unique technology, flooring installation problems associated with disbonding, crumbling, mildew, and staining are eliminated, thus preserving the floor manufacturer's full product warranty.

Benefits:

- Portland cement-based
- Exceptional bond strength
- Provides a smooth finish to a variety of substrates prior to floor covering installation
- Easy to mix and apply
- Mixes with water only, no primers or additives necessary
- True featheredge allows for greater coverage
- Mold and mildew resistant
- Will not contribute to staining floor covering
- For interior use only
- Available in Gray and White
