

ARDEX GPS General Patch & Skimcoat

A general purpose patching and skimcoat product for interior substrate repair prior to installing floor coverings.

Capabilities

ARDEX GPS™ GENERAL PATCH & SKIMCOAT is a trowelable patch and skimcoat for use over interior concrete, wood, ceramic tile, and cutback and other non-water soluble adhesive residues on concrete. ARDEX GPS can also be used over vinyl composition tile (VCT) and as an embossing filler for residential sheet vinyl when mixed with ARDEX E 25™ RESILIENT EMULSION.

ARDEX GPS will provide a permanent, smooth, durable finish prior to the installation of residential and most commercial floor coverings. ARDEX GPS hardens quickly, is easy to apply, dries fast without shrinking, cracking or spalling, and does not need to be sanded.

Benefits

- Blend of specially selected cements and polymers
- Smooth concrete, wood, adhesive residues and more
- Install from a featheredge up to 1/2"
- Walk on in about 30 minutes
- Install floor covering in 1 to 2 hours
- Suitable for residential and most commercial floor coverings

Available in: 25 lb bag (11.34 kg)
