

## **ARDEX AM 100™ Pre-Tile Repair Mortar**

Repair all concrete and masonry surfaces in preparation to receive tile. Suitable for use in wet areas such as swimming pools.

### **Product Capabilities:**

Portland cement-based repair mortar modified with powdered polymers for good bond strength and flexibility. When mixed with water, the result is a creamy, smooth mortar that hardens by hydration and drying, and is water and weather resistant. ARDEX AM 100 bonds to all suitable concrete, masonry and cementitious substrates.

### **Benefits:**

- Portland cement-based repair mortar used prior to setting ceramic tile
- Water and frost resistant
- Use for pre-smoothing all concrete and masonry surfaces
- Easy to mix and apply
- Place from 1/4" to 1 1/4"
- Install tiles in 2 hours
- Especially suited for re-sloping balconies
- Use for interior and exterior floors and walls
