

ARDEX Flex Sanded™ Grout

For the grouting of ceramic and porcelain tile, glass and porcelain mosaics, natural stone tiles and slabs with the exception of moisture-sensitive stone.

Product Capabilities:

Portland cement-based grout modified with powdered polymers providing a smooth finish for floor and wall tile joints up to 1/2" wide. ARDEX FLEX SANDED GROUT is stain-resistant, water repellent, is naturally resistant to mold and mildew formation, and is fast setting with good flexibility and high bonding power.

Benefits:

- Portland cement-based grout in accordance with ANSI A118.7
- Flexible
- Water repellent
- Resistant to staining
- Suitable for all types of porcelain, ceramic and quarry tile, as well as moisture-insensitive natural stone tiles
- Mix with water only
- Sets fast
- Fill joints up to 1/2"
- Use for interior and exterior floors, walls and countertops
