

ARDEX S 20™ Fast Setting Medium & Thick Bed Mortar

The perfect choice for large, moisture sensitive stones!

Product Capabilities:

Non-staining, self-drying, Portland cement-based thick bed mortar for setting of floor and wall tiles on indoor applications. Due to its exclusive self-drying Portland cement-based matrix and fast setting properties, ARDEX S 20 will not contribute moisture to the tile making it particularly suited for use with moisture sensitive stones. Tiles may be grouted after only 3 hours (at 70°F).

Benefits:

- Portland cement-based medium and thick bed mortar in accordance with ANSI A118.4
- Specially formulated for moisture-sensitive stone, including marble, granite, limestone, etc.
- Specially suited for large format and ungauged stones and tiles
- Use up to 3/4" thick making it ideal for all moisture-sensitive tiles and stones of any size
- Self-drying, will not contribute to staining
- Fast setting, grout in just three hours
- Excellent non-sag properties
- Use for interior floors and walls
