DATA NETWORKING ROUTERS AND SWITCHES

PRODUCT	PART #	DESCRIPTION	DIMENSIONS
4-Port Ethernet Router/Switch	**DA1004**	This new router/switch offers key enhancements over similar router/switches, including a de-select switch and a built-in, two-bay form factor. The de-select switch eliminates time-consuming and expensive conflicts with other routers. By setting the de-select switch to the off position, you can disable the router functionality, allowing the homeowner to use another router while still relying on the DA1004 as a switch. **Bracket included.** **Power supply required (see page 41).**	5.9" H x 6.5" W

PRODUCT	PART #	DESCRIPTION	DIMENSIONS
8-Bit Gigabit Switch	**DA1008**	The 8-Bit Gigabit Switch is designed to meet the needs of today's bandwidth-intensive applications. This home networking device offers the highest speed Ethernet available for the home, delivering worry-free distribution of IP-enabled high-definition multimedia. The built-in, 8-port switch installs into a double bay in any On-Q enclosure and auto-detects the optimum speed for the connection. **Bracket included.** **Power supply required (see page 41).**	5.9" H x 6.5" W

PRODUCT	PART #	DESCRIPTION	DIMENSIONS
5-Port 10/100 Base-T Ethernet Switch Module	**DA1002**	The module is equipped with full duplex communication for faster speeds and features auto MDX sensing. It eliminates the need for crossover cabling. **Bracket included.** **Power supply required (see page 41).**	3" H x 6.5" W

DATA NETWORKING INTERFACES

PRODUCT	PART #	DESCRIPTION	DIMENSIONS
8-Port Network Interface Module	**363486-01**	The module supports termination of up to eight Cat 5e cables for interconnection to a local area network or digital data services. It provides a termination point for telephone cable runs and features front-mounted 110-style blocks for Cat 5e cable punchdown connections.	3" H x 6.5" W

PRODUCT	PART #	DESCRIPTION	DIMENSIONS
6-Port Network Interface Module	**AC1000**	This Cat 5e-rated module supports cost-effective connectivity for up to six networked computers via 110-style punchdown to RJ45 modular jacks that snap into the plate. **Bracket included.**	3" H x 6.5" W
