MODEL RP1 and RP2 Control Panels

Single phase, simplex plug-in pump switch control.

The Model RP control panel provides customers with a reliable means of controlling one 120, 208, or 240 VAC single phase pump in water and wastewater installations. A pump float switch turns the pump on and off. If an alarm condition occurs, an additional alarm float activates the audio/visual alarm system. Common applications include pump chambers, sump pump basins, irrigation systems, and lift stations.

PANEL COMPONENTS

- 1. **Enclosure** measures 8 x 6 x 4 inch (20.32 x 15.24 x 10.16 cm) with removable mounting feet, NEMA 4X rated, ultraviolet stabilized thermoplastic for indoor and outdoor use.
- 2. Alarm Fuse
- 3. Terminal Block
- 4. Red Alarm Beacon provides 360° visual check of alarm condition.
- Alarm Horn provides audio warning of alarm condition (83 to 85 decibel rating).
- 6. Exterior Alarm Test/Normal/Silence Switch allows horn and light to be tested and horn to be silenced in an alarm condition. Note: To place alarm system back into the normal mode after silencing the alarm, the switch must be manually placed into normal mode.
- 7. Receptacle for use with piggy-back pump switch.
- 8. Ground Lug (behind terminal block).

NOTE: Schematic/Wiring Diagram is located inside the panel on enclosure cover.

Indoor/Outdoor

PRICING/ORDERING INFORMATION

Model Number	Horsepower/ AC Voltage	Full Load Amps	List Price	Shipping Weight	
RP11W510H	1HP/120 VAC	0-15 FLA	\$303.00	10 lbs.	
RP21W510H	2HP/208/240 VAC	0-12 FLA	\$314.00	10 lbs.	

FEATURES

- Entire control system (panel and switches) is UL Listed to meet and/or exceed industry safety standards
- Dual safety certification for the United States and Canada
- Standard package includes float switches
- Complete with step-by-step installation instructions
- Three-year limited warranty LISTED
