INNOVATIONS FOR LIVING[®]

The right choice.

For over 70 years Owens Corning has been a world leader in building materials, systems and composite solutions. A Fortune 500 company for more than 50 years, Owens Corning's people redefine what is possible each day to deliver high-quality products and services ranging from insulation, roofing, siding and manufactured stone veneer; to glass composite materials used in transportation, electronic, telecommunications and other high-performance applications.

ProStone[®] manufactured stone veneers meet AC-51 criteria, the strictest requirements in the industry.

MAKE A BEAUTIFUL FIRST IMPRESSION

ProStone® Veneer looks great anywhere, indoors or out. And where better than the entrance of a home?

Product shown: LedgeStone Glacier Valley

How will you use it?

As a stately base of a porch column. As a surrounding frame to a warm and welcoming fireplace. Or a dramatic doorway arch. ProStone® Veneer gives you so many options to add the character

of stone to any home or structure. ProStone® Veneer gives you the look, texture, and pride of stone, at a fraction of the cost of natural stone. It is a realistic engineered veneer that offers a world of design possibilities. When the look of stone is this affordable, your imagination is the only limit. Suddenly, stone is within reach.

Leading builders and architects trust ProStone® Veneer.

ProStone® Veneer is a manufactured stone veneer that gives you the durable beauty and authentic look of natural stone at affordable prices. ProStone® Veneer's natural textures and colors enhance any building inside and out. And the appeal of ProStone® Veneer comes without compromise by meeting the most stringent code requirements.

Architects and builders love ProStone® Veneer because it gives them so many design options. ProStone® Veneer is molded from real stone so the texture is detailed, varied, and remarkably lifelike. ProStone® Veneer is made from lightweight aggregates, Portland cement and iron oxide pigments making it durable and easy to install. ProStone® Veneer is applied using the same tools and techniques as masonry, however

because it is lightweight it does not require a brick ledge or wall ties making installation straight forward with less mess and waste.

Choose a single family of colors for a uniform look, or create custom blends that give you unlimited options. From rugged Fieldstone to sleek Easy Fit Savannah Ledge, ProStone® Veneer offers a sophisticated look you can feel good about from every angle.

"ProStone® is a manufactured stone veneer that gives you the durable beauty and authentic look of natural stone at affordable prices. With ProStone® Veneer's natural textures and variety of colors it was an obvious choice for Indigo Architecture, Inc. of Las Vegas. The quality and aesthetic appearance we received on The Village at Craig retail center developed by GreenStreet Properties of Nevada was outstanding. As a matter of fact it was so successful GreenStreet asked Indigo to specify ProStone® on additional projects."
