

EZ Series™ Control Panels

This line of innovative, affordable control panels is designed to make on-site installations easier. EZ Series™ control panels combine **circuit board technology and easy operation** for on-site applications.

An **optional mounting post** featuring a **removable access door** for easy wiring is available. The post can be mounted directly into the ground, over a 4x4 post or conduit for a **quick, clean, easy installation.**

EZ Series™ Single Phase Simplex Demand/TD and Duplex Demand

- Designed to control one or two single phase 120/208/240V pump(s).
- **Panel Features:** NEMA 4X enclosure, locking latch, red LED alarm beacon on cover, external indicators for control power, alarm power and pump run, external test/silence switch, digital display, pump run button, menu/enter and set/change buttons, large terminal block, circuit breakers, and pump run relay.
- **Digital Display Features:** float status, elapsed time pump run, cycle counter, alarm counts, float error count, auxiliary alarm counter, timer override count (TD only), on time (TD only), off time (TD only).

Above: Simplex - Below: Duplex

EZ Series™ Plugger

- Features a built-in high water alarm and receptacle to accept a 120V or 230V pump and a piggy-back pump switch.
- **Panel Features:** NEMA 4X enclosure, locking latch, red LED alarm beacon, audible alarm, alarm fuse, external test/normal/silence switch.

IFS In-Site™ Control Panels

Get In-Site to your On-Site Systems™ with Installer Friendly Series® In-Site™ **data logging** control panels; **monitor systems events** with a flash drive.

Plug the flash drive into the **USB port** on the panel to download up to **20,000 system events** which occurred: pump run times, pump cycles, alarm events, power outages, and service calls. Quick, convenient reports make identifying conditions easy.

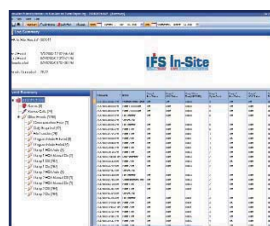

IFS In-Site™ Single Phase Simplex and Duplex Demand/Timed Dosing

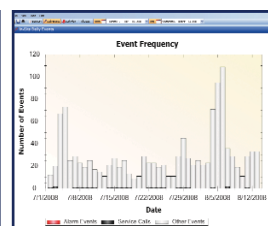

- Designed to control one or two single phase 120/208/240V pump(s).
- Features a simple-to-use touch pad on inner door for programming and monitoring pump and floats.
- **Panel Features:** NEMA 4X enclosure, separate control and alarm fuses, service call button, USB port.
- **Digital Display Features:** pump run indicator(s), float status indicators with float out-of-sequence alarm, HOA switch(es), hand mode safety feature, LED display for elapsed time meter(s), cycle counter(s), alarm counter, lead/lag selector toggles pump operation (duplex), override counter (TD).
- Easily converted to demand or timed dose in the field.

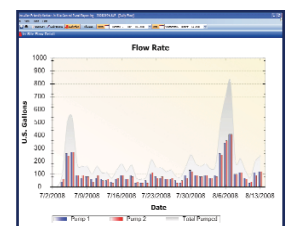

Above: Simplex - Below: Duplex

Event Log Screen displays a complete list of all system events.

Daily Events Screen summarizes all events occurring daily.

Event Flow Screen shows the gallons flowing through the system daily.
