

# Intelix Wall Sensors

## Technical Specifications

### Feature Focus

- Magnetic relay switches for triggering contact closures
- Completely passive
- Sold in pairs

Intelix wall sensors provide automatic, hands-free room combining for the MARC room combine matrix.

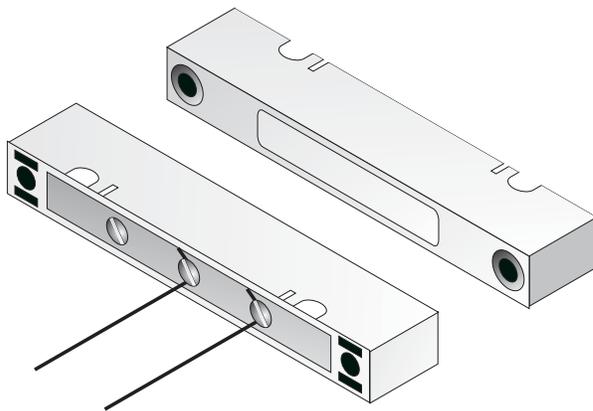

Sold in pairs, Intelix wall sensors contain magnetic relay switches which trigger a contact closure through a Comet-8-RJ12 relay.

For more information, please visit [www.intelix.com](http://www.intelix.com) or contact Intelix directly at 1-866-4-MATMIX.
