

The Platinum 260 Watt Seven Zone Amplifier

Speco Technologies has answered our customers' requests for a high-wattage, premium amplifier to handle their most demanding large-scale applications.

Our Platinum 260 model (PL260A) delivers 260 watts of RMS power while featuring seven 70 or 25 Volt paging zones that can be independently controlled. A 24 Volt battery backup input terminal delivers reassurance in the event of a power failure, safeguarding that internal communications can still be maintained. Five XLR microphone connectors with individual phantom power switches, and three auxiliary jacks deliver ample inputs that will cover most any end user needs.

Additional features of music-on-hold, a 600 Ohms telephone paging input, pre-amp input, booster output, 4/8/16 Ohms speaker outputs, an auxiliary output and separate bass and treble controls.

**Ideal for Schools,
Offices, Manufacturing
and more**

1. AC power cord
2. Ground
3. 24 Volt DC input terminals for battery backup
4. Speaker output terminals
5. AUX output RCA jacks
6. Booster amp out
7. Pre-amp/EQ/mix input
8. 3 Auxiliary input RCA jacks
