

The PL200M is the next generation of Speco Technologies' commercial amplifiers. This advanced unit features matrix technology, allowing you to route up to 5 separate inputs to 4 distinct zones. Now you can have the potential of playing a different source in each zone simultaneously. Assigning a source to a zone is as easy as pressing a button, and each source has its own separate gain, treble, bass and volume controls. Three of the inputs feature a unique universal plug allowing for flexibility of connecting either an XLR or a 1/4" plug into the same input.

- Simultaneous playback of up to 5 sources into up to 4 zones
- Telephone paging function and monitor output for a limited music-on-hold function
- Microphone 1 priority with VOX mute function
- Intelligent cooling fan
- RoHS Compliant
- Separate controls (gain, bass, treble, volume) and mute for each source
- Separate volume control & LED level indication for each zone
- 19" rack mount design with built-in handles (3U)

## PL200M FOUR ZONE 160 WATT COMMERCIAL AMPLIFIER

- 3 XLR / 1/4" combination inputs with phantom, mic or line level selection switch / 2 RCA inputs
- 4 sets of 4/8/25/70V outputs
- 40W RMS power output per zone for 160W total
- 60Hz – 17KHz +/- 3Db frequency response
- 19" L x 12.2" W x 5.2" H
- 33.3 lbs.

**Ideal for Offices, Hospitality,  
Hotels and more**
