

Speco Technologies' high-powered, VHF portable microphone system and amplifier offers performance, convenience and value for all your on and off-site events. Featuring 80 watts of power, the PAW80A can connect with audiences of up to 2,000+ people. It also features two ¼" microphone connectors and ¼" auxiliary in and out connections.

With compact, state-of-the-art "Class D" amplifier technology, this lightweight amplifier is easy to transport and comes with a six-function CD Player for pre- and post-presentation entertainment. Have the choice of using a handheld OR lapel VHF wireless microphone (both included) with this unit. An internal, rechargeable battery will allow 3+ hours of cordless use.

The PAW80A features one of the most aggressive price points in the industry and comes with a 5-year limited warranty, and demonstrates why we offer the best values for quality products in the marketplace.
