**PRA-6000** | 50 Watt Public Address System

Powerful unit built into a rugged case with carry handle is perfect for voice amplification on the go or in any venue. Simply plug in & attach included handheld microphone for audio coverage to hundreds of people. Optional Tripod available. CD or cassette allows music & multimedia sound effects during presentation, plus record onto cassette during use! Standard bass/treble controls with mic volume allow user to customize to room size or outdoor use. Line out for extension speaker capability.

**PRA-7000** | Pro Audio 100 Watt Wireless UHF Public Address System

This wireless public address system has 100 watts of power for audiences up to 10,000! Converts any room large or small into an amplified hall. Allows freedom of movement up to 200 ft. with included handheld wireless microphone. Retractable carry handle and wheels allows for easy transport & set up at all locations. Optional Tripod available. Built-in CD & cassette allow music & multimedia effects during presentation, plus record your speech at the touch of a button. Multiple mic inputs for additional speakers, with a full array of features; line in, line out, bass/treble & separate mic volume controls. AC/DC power included.

OSC is excited to offer these high end fully featured systems integrating the latest in Public Address technology with features such as 50W and 100W amplifiers for audiences up to 10,000! CD, tape, wireless to name just a few...
