Entertainment Made Simple[™]

Preprogrammed and Learning LCD Touch Screen Remote Control with PC Interface

"The Home Theater Master MX-1000 has all the features you'll ever want in a universal remote."

Daniel Tonks, remotecentral.com

"This outstanding remote raises the bar. Rating 10 out of 10. Go buy this remote"

ING.com

"Overall I love it (the MX-1000) and I'd recommend it, especially now with the PC Software for editing."

MX-1000 Owner

"I couldn't be happier with this remote. I have been able to program the remote exactly as I envisioned it prior to purchasing."

MX-1000 Owner

"I chose it because it's a flexible, programmable remote with a joy stick and hard buttons, making it perfect for TiVo and Audio."

MX-1000 Owner

MX-1000

This is the Last Remote Control You Will Ever Need

The Home Theater Master MX-1000™ is truly the only remote control you'll ever need. Its unique PC interface lets you update new component codes so you'll never have to replace your remote control again. The MX-1000 is totally customizable. Our SofTouch LCD touch screen lets you configure your display exactly how you want it. So simplify your life... with the Home Theater Master MX-1000.

SofTouch™ LCD TOUCH SCREEN

SofTouch allows you to customize 50 unique screens including the text, size and shape of your display directly on the remote or with your PC. Software driven, the LCD lets you control all of your components' functions.

PC INTERFACE CABLE/CONNECTION

Connects your MX-1000 to the Internet through a supplied cable.

CONTROLS 12 DEVICES
