

ArtScreen CineScape

Motorized Art System for Front and Rear Video Projection Screens

Art
SCREEN
SYSTEMS
BY VUTEC
CINESCAPE SERIES

ArtScreen CineScape transforms a video projection screen into a work of art. Inside a beautiful hardwood frame, the artwork ascends or descends with the touch of a remote. When the screen is not in use, the digital art-on-canvas image of your choice is displayed within the frame. When your artwork is retracted, the video display is visible for viewing.

Features

- Sizes include 60" 84", 92", 103", 110", 115", 2.35:1 diagonal
- Available in front projection (CineScape-F)
- Available in rear projection (CineScape-R)
- Designed for ease of installation
- Large selection of Giclée fine art prints, frames, and liners
- Client's custom art or family photographs can be duplicated with authorized release

Theater Art Systems with Masking

Theater Art Systems™
BY VUTECH

As the home theater market changes, people are looking for an “undedicated home theater” system that can go into any room such as a Great Room, family room, living room, bedroom or den.

Theater Art Systems with Masking is the undedicated home theater system providing the versatility so much in demand today. Adaptable for virtually any room, it transforms a standard video projection screen with masking into a work of art. Inside a beautiful hardwood frame, the artwork ascends or descends with the touch of a remote. When the screen is not in use, the digital art-on-canvas image of your choice is displayed within the frame. When the artwork is retracted, the video display is visible for viewing.

Theater Art Systems with Masking, a winner of the 2008 Electronic House Product-of-the-Year Award, introduces framed high quality art **with** an automatic vertical or horizontal masking system.

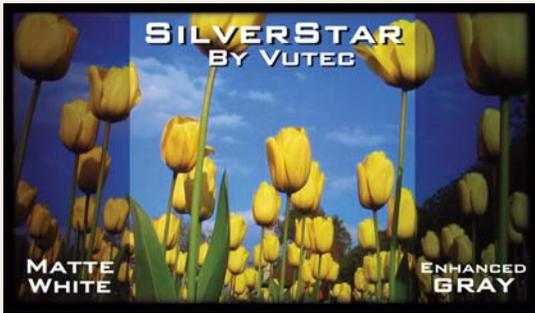

This advanced screen/art/masking system for the undedicated theatre incorporates the SilverStar™ 2.35:1 or 16:9 dual aspect high definition-high gain front projection screen, a vertical or horizontal masking system, and a motorized Giclée canvass artwork to cover the screen completely, transforming it into a framed work of art on the wall when not in use. Many sizes and an almost unlimited choice of art is available. Theater Art Systems with Masking truly meets the changing needs of home theater enthusiasts.

Choosing The Product of the Year

The editors of EH Publishing’s four magazines that are dedicated to the electronic house all choose their favorite products. Editors decisions are based on reviews run throughout the year, product demos, and talking with the installers and users of the products. “New products are judged on the promise of features that we feel will be great. Topping our list of criteria is technological innovation, combined with overall value—and just plain outstanding features.”

– *Electronic House Magazine*

Screen Features

- SILVERSTAR – Vutec’s patented High Gain (6.0), High Contrast/Definition front projection screen.
- Light control not critical. Vivid color reproduction

Horizontal Masking

16:9 masking to 2.35:1

Vertical Masking

2.35:1 masking to 16:9
for anamorphic lens projectors

Masking Features

- Designed for native 16:9 projectors
- Horizontal or Vertical masking panels
- Combines Horizontal Masking System with a fixed width that automatically becomes a 2.35:1 CinemaScope (movies) aspect ratio
- Combines Vertical Masking System with a fixed height that automatically becomes 16:9 for anamorphic lens projectors.
- Quiet electronics through intelligent motor control system, achieving an optimum shadowless viewing experience with no space between the masking panels and projection screen surface.

“I am absolutely BLOWN AWAY by SILVERSTAR. I highly RECOMMEND it!”

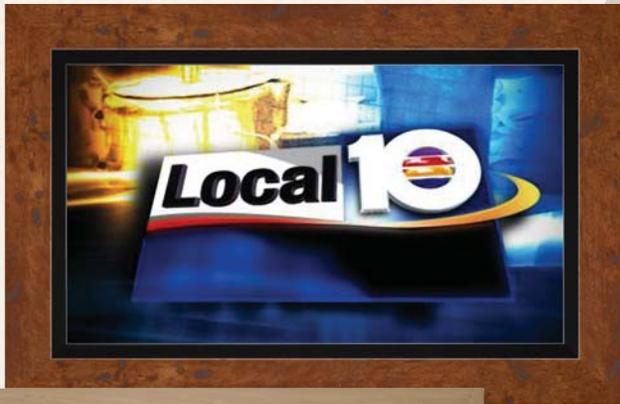

“Emmy nominated Hollywood screen writer for
“Band of Brothers” and “A Mighty Heart”

John Orloff

ArtScreen Designer

ArtScreen designer is a free tool available on the Vutec website, allowing consumers to select and preview the look of an ArtScreen from the vantage point of the choice artwork, liner, frame....and even color and texture of the wall/ backdrop for the ArtScreen.

In addition to seeing their choices of frames, liners and art reproductions on the ArtScreen Gallery, shoppers can also upload their own images of art onto the designer tool for customized purposes.
