

GEMÜ®

Innovative technology

GEMÜ is a leading world-wide manufacturer of high quality valves, measurement and control systems. Our owner Fritz Müller's invention of the first plastic solenoid valve world-wide for the electroplating industry was the foundation stone of GEMÜ in Ingelfingen in 1964. Since then the company developed internationally with a large number of production and sales companies.

GEMÜ provides engineered control solutions for a large number of process and engineering plant, such as:

- Industrial plant and machine construction
- Automobile industry
- Water / waste water treatment
- Chemical industry
- Steel works
- Mining and metal extraction
- Power stations
- Shipbuilding industry
- Petrochemical industry
- Paper industry
- Pharmaceutical and biotechnological industries
- Foodstuff and beverage industries
- Microelectronics and semiconductor industries

State-of-the-art factory equipment and machinery plus a motivated team ensure the best service through our world-wide network of distributors and stockholding subsidiaries. We are constantly making investments in order to optimise our existing products and to develop new products. Thus we can provide technical solutions for individual applications.

GEMÜ - your valve and instrumentation partner.
