

Models: 125F-CS*, 125F-SS

Cast Carbon or Stainless Steel Flanged End Simplex Basket Strainers Sizes: 3/4" - 18" (20- 450mm)

Pressure / Temperature – Non-Shock		
Model	Material	Rating
125F-CS	Carbon Steel	285psi @ -20°F to 100°F
		19.65 bar @ 37.78°C
		150psi @ 565°F 10.34 bar @ 296.11°C
125F-SS	Stainless Steel	275psi @ -20°F to 100°F
		18.96 bar @ 37.78°C
		150psi @ 565°F 10.34 bar @ 296.11°C

Max. temp. can be limited by O-ring Material. Consult factory.
 All units with knob type closure.

125F-CS Carbon Steel Class 150

125F-SS Stainless Steel Class 150

Model 125F

* Model 125F supersedes model 195, which is available upon request.

Strainers provide economical protection for costly pumps, meters, valves, and other similar mechanical equipment by straining foreign matter from the connected piping system. Installation of a strainer before mechanical equipment can ensure trouble free service and avoid costly shutdowns for repair or replacement of equipment damaged by foreign matter. The size of the perforation or mesh in the basket screen will determine the smallest particles captured. See Strainer Information section of Mueller Steam Specialty Engineering binder for detailed information including sizes and materials available.

Typical Service

- These strainers can be specified for many applications in chemical processes, including brine, paint, fuel oil, organic and inorganic chemicals, as well as condensers and heat exchangers, to name just a few.

Features

- Designed for large capacity straining and ease of maintenance.
- Cover is secured with quick-opening knobs to minimize service time.
- O-ring seals on both the cover and baskets can usually be re-used after service, no need to clean gasket residue and replace costly gaskets.
- Machined basket seat eliminates particle bypass.

Construction

- Standard cover has O-ring seal and quick release knob fasteners up to 8" size, bolted cover for sizes 10" and up
- Bolted cover available on all sizes, consult factory
- Swing clamp covers are available, consult factory
- Plugged NPT connection is provided at location D. See next page.

Capacity

- Minimum 6 to 1 ratio

Special Coatings and Treatments

- Epoxy and other corrosion resistant coatings are available on Carbon Steel, consult factory
- Pickling and passivation are available on Stainless Steel, consult factory.

Steam Jacketing

Available on request, consult factory.
