

# Lassen HD™ & Lassen SDI™ 8 Series Routing Switchers

8x8 HD-SDI & SDI Routing Switchers with Analog and Digital Audio

The **Lassen 8 Series** are high performance routing switchers for SDI (SMPTE 259) and HD-SDI (SMPTE 292 single link, SMPTE 372 dual link) video signals. These units feature a compact 2U (3.5") frame and can be ordered with or without audio. They can route any or all inputs to any or all outputs. HD-SDI models can input SDI and HD-SDI simultaneously, but there is no conversion between formats.
