

Ever wished you could just browse all of your movies, no matter where they are stored, with the touch of a button? Now you can add this functionality to your Control4® system and simplify your video viewing experience.

Control4 has long provided a simple way to access the discs in your DVD and Blu-ray changers for easy navigation and playback. The Control4 Media Player now allows you to access a wide variety of digital video file formats, including home movies, stored on NAS drives from any TV in your home. The easy-to-use User Interface makes this the ideal solution for streaming centrally stored digital video content throughout any home.

It's all part of the Control4 vision. We bring the benefits of a truly connected digital home to more people with solutions that are affordable, easy-to-use and designed for any home or lifestyle.

---

## Features & Benefits

- **Easy-to-Use** – Playback your digital video files directly to your TV
- **Low Profile** – Add this compact player behind your TV or in another discrete location so you can minimize your electronic clutter
- **Incredible Value** – Enjoy excellent video quality and independent room control throughout your home at an affordable price
- **Modular Solution** – Start small with one-room control and easily add more video zones when it makes sense for you
- **Hassle-Free Entertainment** – Access your collection of DVD discs, Blu-ray discs and video files from a single, intuitive User Interface

### **One-Touch Home Theater**

Simplify the control of everyday audio, video, and home theater components, eliminating the need for multiple remotes.

### **Multi-Room Music**

Enjoy digital music collections—like XM or Sirius, Rhapsody, or your personal iPod library—anywhere in your home.

### **Smart Lighting**

Create Lighting Scenes that offer simple control over lights and outlets. Control4 smart lighting uses timers, Motion Sensors, and Dimmers to enhance security and reduce energy costs.

### **Advanced Temperature Control**

Help conserve energy and ensure comfort with pre-programmed temperature controls.

### **Safety & Security**

Integrate a security system or IP cameras to monitor home security from virtually anywhere.
