# VS-81FW

8-Port FireWire® Switcher

FIREWIRE

The VS-81FW is a high-performance bidirectional switcher for 6-pin FireWire® (IEEE 1394) data signals. It connects any two ports.

FEATURES

- **Mechanical (Passive) Switching** - No power required.
- **Transfer Rates** - 100, 200, and 400Mbps.
- **Desktop Size** - Compact size. 2 units can be rack mounted side-by-side in a 1U rack space with the optional RK-81 adapter.
