

CP-A35M/A35M

3.5mm Audio Plenum Cable

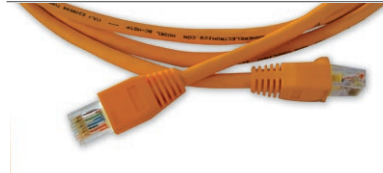

Kramer's **CP-A35M/A35M** series mini stereo audio cables are premium quality plenum rated cables constructed of shielded pair style cable terminated with precision male tip-ring-sleeve style 3.5mm connectors at each end. They offer outstanding durability and high performance for any stereo unbalanced audio signal application where a plenum rating is required.

FEATURES

- **Plenum Rated** - The low smoke and fire-resistant properties of plenum rated cable allow it to reside in air return spaces of ceilings, floors, and walls, often saving the cost of installing conduit.
- **Quality Construction** - Constructed from flexible, high-quality plenum rated 22 gauge shielded pair style cable.
- **Cable Specs** - See Kramer BCP-1T bulk cable for detailed specs.
- **Varied Selection of Lengths** - Available in 10, 15, 25, 35, 50, 75, 100, 125 and 150ft versions (3 to 45.7m).

CP-HDTP/HDTP

Plenum Rated Pre-Terminated Ultra Low Skew UTP (Unshielded Twisted Pair) Cable

Kramer's **CP-HDTP/HDTP** pre-terminated unshielded twisted pair (UTP) cable designed for long distance video transmission over CAT 5/5e twisted pair cable applications. It is ideal for Kramer's Cobra Twisted Pair™ series transmitter/receiver sets. **CP-HDTP** resembles typical CAT 5/5e cable, but with internal components optimized for transmission of video/audio signals rather than high-speed data.

FEATURES

- **Quality Construction** - CP-HDTP cables are durable and flexible CMP/CL2P rated, and terminated with high-quality RJ45 connectors with snag protection boots. Note that the boots can slide out of the way when easier access to the release tab is desired.
- **Precision Engineered** - Four pairs of solid 23 gauge copper are twisted at the same ratio so the actual length of each is identical. Note that these cables are not suited for high-speed data or network applications.
- **Varied Selection of Lengths** - Available in lengths of 25, 35, 50, 75, 100, 150, 200 and 300ft (7.6 to 91.4m).
