

5 sources no HDMI cables, the Atlona Wireless HD Audio/Video System brings wire management to the extreme. Connect up to 5 HDMI sources wirelessly to a display or AVR across the room with no unsightly wires to trip over. With pass through of up to 1080p, 1600x1200, or 3D the LinkCastAV ensures the best video experience is just a wireless connection away.

Go Further

Send signals up to 40ft* without an HDMI cable or extender. The AT-LINKCASTAV is built to receive high quality video signal from any HDMI source without degradation or pixelation.

More Choices

Not just a single source receiver! Purchase up to 4 additional transmitters to suit the needs of almost any home or office audio/video set up.

1080p - 3D

Fully supported high resolution video passes without delay through the Atlona LinkCast Wireless HD Audio/Video system. Get the full effect of any 3D video system without signal loss or jumping.

Full Gaming Experience

Tested with PC and Console games to ensure no latency. Enjoy the best First Person Shooters, Role Playing Games, and Massively Multiplayer Online RPGs wirelessly on a big screen TV with crystal clear picture.
