

Clean-up and save money

Madvac 61

Madvac

The litter collector benchmark

Madvac is the world's leading manufacturer of outdoor surface cleaning equipment. We are unique among vacuum manufacturers in that our comprehensive range of machines means we are able to offer the right product for your application—whatever you are trying to clean.

The Madvac 61 is designed to deliver industry-leading vacuum litter collecting technology:

- Ease of use
- Outstanding performance
- Reliability, durability
- The lowest possible cost of ownership

With durable, rugged construction, high performance suction and a design that meets all international safety and environmental standards, the 61 sets the global benchmark for vacuum litter collector quality.

Madvac
A cleaner
environment
for everyone

From landfill to shopping sites

Clean up the savings

One Madvac 61 does the job of 4 to 5 manual pickers. Our machines have made the old-fashioned manual litter collection methods a thing of the past. The 61 can do the job of a vanload of people. It's there, when you want it... and it's always productive.

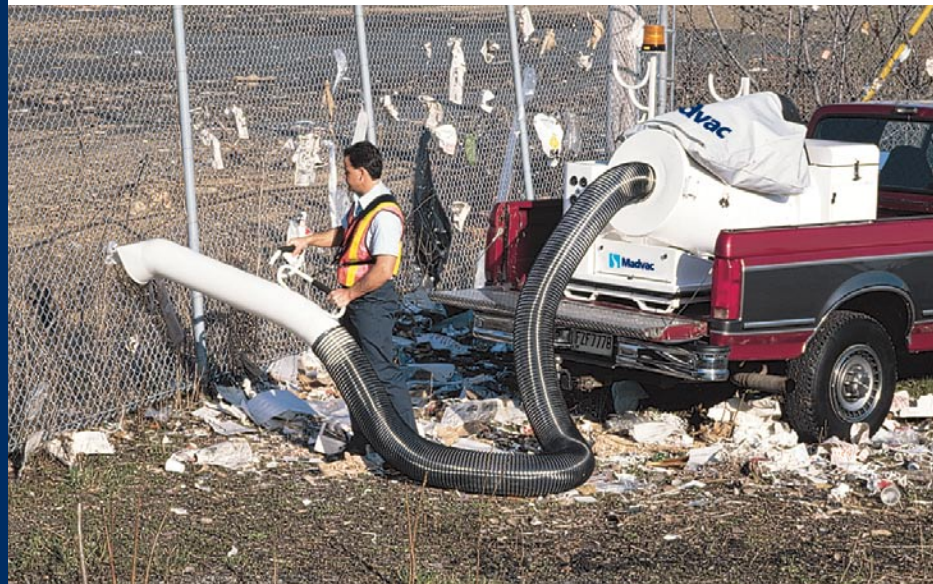

PICTURE
40 ft hose and optional
vacuum hose arm gives
you the reach you need
for hard-to-reach areas.

Incredible mobile suction

Get to the hard-to-reach areas quickly with the amazing portable Madvac 61 litter collector. It fits on a pickup truck or hitches as a trailer and sucks up windblown trash from fence lines, parking lots and parks with hose length of up to 40 ft.

Easy to maintain, even easier to operate, and engineered to last ... this is the most cost effective approach to litter collection.

Increases productivity by 400%

From landfill to shopping sites

- 5 or 8 inch (127 or 203 mm) diameter hose
- Optional 40 ft (12 m) hose extension for extra reach
- Air exhaust filter bag keeps operators dust-free
- 80 gallon (300 L) capacity steel container
- Patented straight-through suction compacts litter yielding approx. 160 gallon (600 L)
- Quick-change litter bag
- Vacuums cans, bottles, newspapers, plastic and paper bags as well as other trash

No Fan to Jam

- No Fan To Jam™ patented straight-through suction prevents trash from going through the fan - eliminating fan wear, clogging and mechanical downtime
- Uses variable suction control
- Reliable, powerful workhorse powered by either a Kubota diesel engine, Kohler gasoline, Kohler propane or electrically
- Easy access to engine compartment for simplified maintenance
- **Lifetime warranty on the fan**
- Trailer to skid-mount in 15 minutes

Cleans fence lines four times faster than manual pick-up

61 Vacuum Litter Collector Specifications

Engine

Fuel capacity: 61D & 61G: 6 U.S. Gal. tank / 61LP: 30 lb. liquid propane tank / 61E: N/A

Air cleaner: 61D, 61G & 61LP: High-capacity two-stage cyclonic. / 61E: N/A

Diesel (61D): liquid cooled Kubota, diesel engine, 13.8 HP, 2 cylinders, electric start, key ignition switch, rubber mounted

Gasoline (61G): Air cooled Kohler, gasoline engine, 14 HP, single cylinder, electric, start & stop, key ignition, switch, oil sentry shutdown, rubber mounted

Propane (61LP): Air cooled Kohler, liquid propane engine, 20 HP, 2 cylinders, electric & stop, key ignition, switch, rubber mounted

Electric (61E): 7.5 HP electric motor, 220V/440V single or 3 phase, sealed, fan cooled, rubber mounted

Vacuum Specifications

System type: Straight-through suction with no restrictions, vacuum air stream to flow through collector bag, litter compacted within collector bag, litter does not pass through the impeller.

Power: Fan directly mounted and powered from main engine

Vacuum pump: Cast alloy centrifugal fan, statically & dynamically balanced. Heavy gauge steel casing, aerodynamic design.

Impeller speed: 61D, 61G & 61LP: 1500 to 3400 RPM. Infinitely variable suction control / 61E: 3480 fixed

Static pressure at closed inlet: 30 in. of water gauge pressure.

Vacuum Specifications

Suction pressure at open inlet: 8 in. of water gauge pressure.

Container: Heavy gauge steel, capacity 80 gallons

Bags: Fibrous polypropylene, reusable, 36 in. x 48 in.

Pick-up hose: Lightweight plastic molded hand-held 25 ft. long 8 in. diameter hose made of clear PVC with helix reinforcement, smooth bore. Optional 5 in. diameter hand-held pick-up hose available.

Hose extensions: Extensions to pick-up hose in 15 ft. increments available in 8 in. & 5 in. diameters

Hose storage: Storage rack for the 25 foot, 8 inch or 5 inch diameter pick-up hose

Skid-mounted unit specifications

Frame/Body: Heavy gauge steel body on welded tubular steel frame, with all around bumpers.

Installation: Multiple transport options, adapts into any pickup truck or mounts on train lorries. Also convertible into trailer.

Warning light: Flashing beacon, flashing strobe or rotating light optional.

Gauges: 61D, 61G & 61LP: Hour meter, oil pressure indicator, electric fuel level indicator, also temperature gauge and glow plug lamp on diesel engine. 61E: N/A

Storage: 2 cu. ft. compartment

Paint: Electrostatic powder paint, standard color white. Custom colors available.

Skid unit specifications

Overall width: 39 in., bumper to bumper

Overall length: 71 in., bumper to bumper

Height: 62 in.

Weight: 61D: 700lbs., with all fluids
61G: 620lbs., with all fluids
61LP: 675lbs., with all fluids
61E: 610lbs.

Trailer unit specifications

Wheels: (2) 175/80 R 13, 4-season radials

Lighting: Complete signalling package

Overall width: 56 in., fender to fender

Overall length: 114 in., (incl. 38 in. tow bar)

Height: 74 in.

Weight: 61D: 900lbs.
61G: 820lbs.
61LP: 875lbs.
61E: 810lbs.
