

Part Number: 40425

Description: Squeeze Rod Style - Gauge Glass Cutter

Packaging: Poly-bagged & tagged

Includes:

1 - Gauge glass cutter

Works similar to the plier style gauge glass cutter.

It offers good leverage on scoring the glass tubing by a means squeezing flexible rods together.

Part Number(s):

40428 (Standard blowout gun)

40429 (Gun with 150 psi safety valve)

Description: Blowout gun

Packaging: Poly bagged & tagged

Includes:

1 - Blowout gun and instruction sheet.

Our blowout gun uses a CO² cartridge (sold separately) and incorporates a 1/4" NPT female connection, that can be adapted to other fittings. It is intended for use in blowing out clogged lines that are vented beyond the restricted point to the atmosphere. It should not be used in a closed end line.

Applications include fuel oil lines, machine lubrication systems, instrument transmission lines, and hydraulic pipelines.

The blowout gun with the built in check valve allows the user the ability to remove used CO² cartridges without pressure line loss. You can then add additional CO² cartridges as needed, up to 150 psi.

Replacement O-rings are available ask for P/N: 40427-10

Part Number: 40430

Description: Electrode tip benders

Packaging: Poly bagged & tagged

Includes:

2 - Tip benders.

Made of steel with a plated finish. Used for bending and adjusting electrode and igniter tips, this lightweight tool is pocket size and easy to use.
